ROMA 4.3.6 – Release Notes

July 12, 2020

1 Contents

1. Assessments - New design (available in Production environment only)	2
2. Bug Fixes	2

1. Assessments - New design (available in Production environment only)

What?

The following assessments are now available in a new design:

Spanish

- Data Entry
- Typing

Japanese

- Following Instructions
- Attention to Details

2. Bug Fixes

What?

Along with the new features being added to ROMA with the new releases, we are always keen to resolve incidents / bugs found to ensure a smooth user experience or make our platform a robust and reliable one.

We will be communicating with all clients providing all the details of the bugs that were resolved specific to them as part of 4.3.6 release.

We truly hope you love ROMA 4.3.6

Thank you
