# 1. Major Fixes

## What?

As part of application maintenance, we have proactively identified few issues and fixed those issues as part of this release.

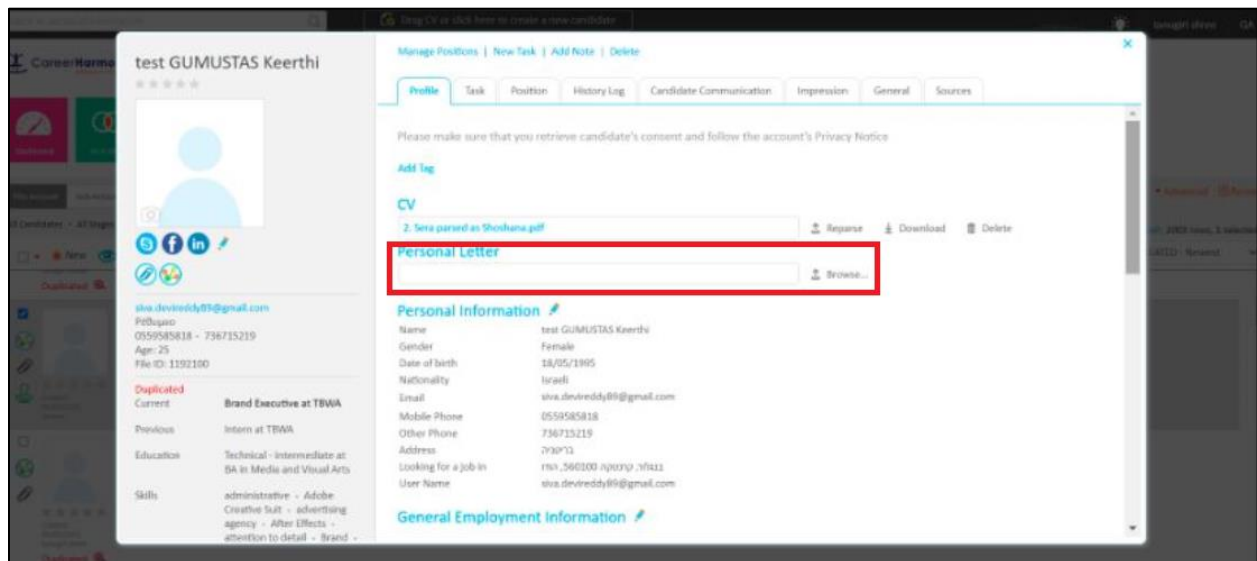

1. Deletion of Personal Letter When Uploading new CV
2. Header Alignment of Scheduling Activity Report
3. Error 500 When Applying Position
4. Right/Wrong Judging of Figural Reasoning Assessment

## Why?

In order to make sure the ROMA application up and run.

### 1.1 Deletion of Personal Letter When Uploading new CV

The stated issue was there in Candidate Manager page. When user performing the uploading of new CV into the CV Field, the Personal Letter is getting deleted or removed from the field and now the issue has been fixed and made available in ROMA.

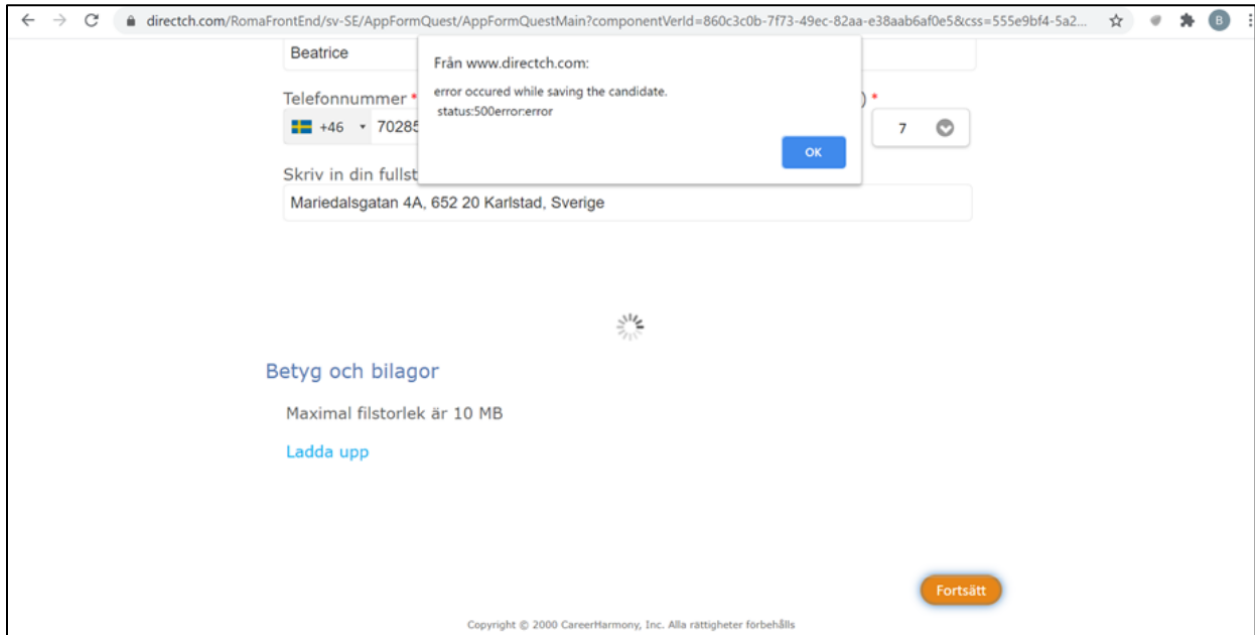

### 1.2 Header Alignment of Scheduling Activity Report

The stated issue was there in Insights. The below error was coming When exporting Scheduling activity report to PDF format header is getting mixed with executed.

### 1.3 Error 500 When Applying Position

The stated issue was there in position page. The below issue appearing while applying to position and now the 500-error issue has been addressed and made available.

### 1.4 Right/Wrong Judging of Figural Reasoning Assessment

The stated issue was there in Figural Reasoning of Assessment for **Japanese** culture. The following 3 questions throwing wrong judgment when candidate choose the correct answer and now it has been addressed and made available as right judgment.

## 2. Bug Fixes

### What?

We have addressed most critical incidents / bugs to ensure a smooth user experience or make our platform a robust and reliable one. We will be communicating with all clients providing all the details of the bugs that were resolved specific to them as part of 4.4.4 release.

We truly hope you love ROMA 4.4.4 😊

Thank you
