1.1	Enabled Malware Pop-Up for Mobile Version.....	3
1.2	Change in Functionality for Clicking on Position	3
1.3	Change in Phone Number Validation in Application Form.....	4
2.	Bug Fixes	4

1. Major Fixes

What?

As part of application maintenance, we have proactively identified few issues and fixed those issues as part of this release.

1. Malware pop-up error message is not displayed for the corrupted CV and Personal Letter in Mobile view
2. Change in functionality on clicking on position record with respect to access level
3. Change in Phone number validation in Application

Why?

To ensure seamless and smooth user experience of the application.

1.1 Enabled Malware Pop-Up for Mobile Version

The stated issue has been addressed in Mobile for both Android and iOS. When the user is trying to upload the malware CV (Curriculum Vitae) and Personal Letter in Candidate portal, ROMA will not allow the upload and display an alert notification "Corrupted / Malware file found, please upload another File to proceed". The change will reflect across all culture.

1.2 Change in Functionality for Clicking on Position

There is change in existing functionality in Position Manager based on issue raised. The change is that whenever the user clicking on position with single or double click, it will open only in view mode. In addition to that the user can only edit the position by clicking on edit icon. The stated change will reflect in all cultures.

Single Click or Double Click on Position Open in View mode

Candidates

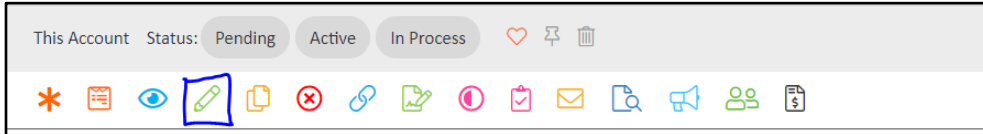

No. of Vacancies
Vacancies ordered from current vendor

Potential Vacancies
Potential orders from additional vendors (displayed in report: Position Details Report – Export View)

Limit No. of Candidates
Limit the number of candidates which can be hired to this position

Editing on Position Only Through Edit Icon

1.3 Change in Phone Number Validation in Application Form

This change is regarding the phone number format for **Vietnam**.

The requested change in phone number validation has been made on application form of the positions. The change is that the starting digit of the phone number can be any number starts from 1 to 9.

2. Bug Fixes

Along with the above major issues, we have addressed most critical incidents / bugs to ensure a smooth user experience and make our platform a robust and reliable one. We will be communicating with all clients providing all the details of the bugs that were resolved specific to them as part of 4.4.7 release.

We truly hope you love ROMA 4.4.7 😊

Thank you
