Contents

- 1. Major Fixes..... 3
 - 1.1 Restricting few special characters in password reset..... 3
 - 1.2 Dropdown issue with Status in Candidate Manager 4
- 2. Bug Fixes 4

1. Major Fixes

What?

As part of application maintenance, we have proactively identified few issues and fixed those issues as part of this release.

1. Restricting few special characters in password reset
2. Dropdown issue with Status in Candidate Manager

Why?

To make sure the ROMA application up and run.

How?

1.1 Restricting few special characters in password reset

We found that there are few characters not allowed in ROMA application. But the users can type those characters and save the same in reset password, and change password page. The characters are `[~%<>{}|\"]`. Now the issue has been addressed and these characters will no longer accepted. If

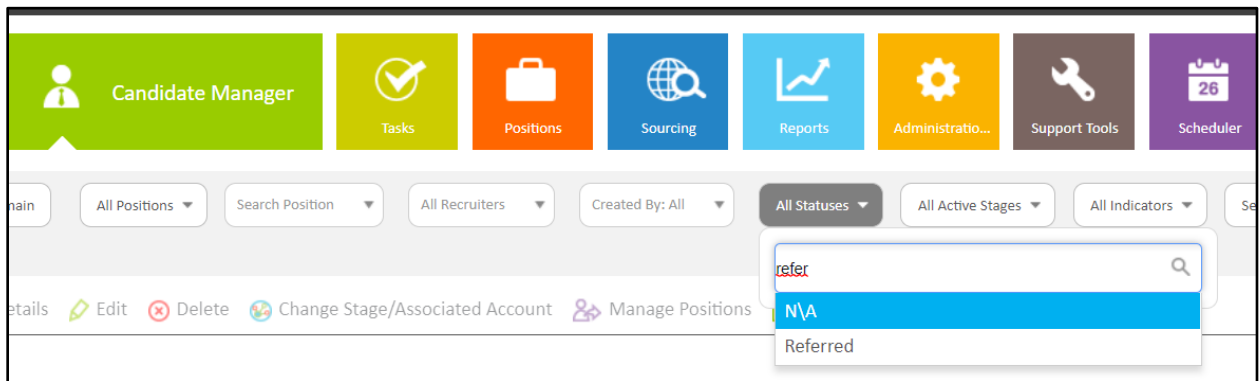

The screenshot shows a 'Reset Password' form with the following elements:

- Title: **Reset Password**
- Instruction: Please enter your user name and a new password.
- Fields: User Name, Password, and Re-enter Password.
- Buttons: OK and Cancel.
- Error Message: `[~%<>{}|\"] characters are not allowed` (displayed in red text below the form).

user type those characters as part of password, then the error ' `[~%<>{}|\"] characters are not allowed`' will appear.

1.2 Dropdown issue with Status in Candidate Manager

The status field in candidate manager had a bug that whenever user was trying to find the status in the field, the value was not appearing in the dropdown. The root cause of the issue is that the field values are in case sensitive. Now the stated issue has been addressed and made available as part of the release.

2. Bug Fixes

What?

Along with the above major issues, we have addressed most critical incidents / bugs to ensure a smooth user experience and make our platform a robust and reliable one. We will be communicating with all clients providing all the details of the bugs that were resolved specific to them as part of 4.5.5 release.

We truly hope you love ROMA 4.5.5 😊

Thank you
